REINVENTING!
METRO!

August 2022

It is back-to-school month and Metro is the smartest way to get to and from classes. The team has been busy working with Cincinnati Public Schools and our partners at the University of Cincinnati and Cincinnati State to promote just how easy and convenient is it to ride Metro to school.

CPS: School starts for CPS on Aug. 18 and this year eligible 9th-12th grade students will ride Metro to and from classes each day, with 7th-8th graders utilizing Metro for extracurricular activities. Metro staff have attended several CPS events and school orientations to assist families with trip planning and to answer any questions they may have. Staff will also be stationed at transfer points to help students during the first few days of classes.

University Programs: University students at the University of Cincinnati and Cincinnati State will be able to take advantage of all the new service improvements surrounding their institutions with free rides for an entire month. Classes at UC begin Aug. 22 and Aug. 29 at Cincy State. New this year, enrolled students will be able to access their free-fare pass in the Transit App with EZFare. Metro staff will be on campus to promote the program during orientations and have already begun a robust student-focused marketing campaign.

New Shelters Installed: The long-awaited shelters have arrived! Five of the 10 shelters to be installed this month have found their new homes at 7th & Vine, 9th & Vine, 9th & Walnut, Vine & Liberty and Madison & Withrow. Another 20 shelters are to be installed within the next month. These new shelters will offer customers a clean, safe, and convenient place to wait for the bus out of the elements.

Silverton Open House: Hopefully, many of you were able to join us for the Silverton Open House today. The Silverton facility recently underwent some much-needed upgrades to better assist potential Access customers going through the eligibility process.

Reinventing Metro Phase II Public Meetings: As we prepare for the next wave of service improvements, which includes the rollout of the *MetroNow!* mobility on-demand service. The community is invited to learn about and offer feedback on these upcoming changes proposed to go into service in December on the following dates:
